

# Anto Jebikshan D

Tirunelveli, Tamil Nadu | dantojebi@gmail.com | linkedin.com/in/antojebi | github.com/AntoJebi7

## Profile Summary

---

Software Engineer specializing in n8n workflow automation, full-stack web development and Docker-based deployments on GCP. I work with the MERN stack, Next.js, PostgreSQL and Firebase, supported by strong Java problem-solving skills. With added experience in UI/UX and Product Design from Zoho, I build scalable, efficient and user-friendly applications with a balance of technical and design expertise.

## Education

---

**SCAD College of Engineering and Technology**, B.E. in Computer Science and Engineering Nov 2022 – Apr 2026

- CGPA: 7.8 / 10
- **Coursework:** Data Structures and Algorithms, Database Management Systems, Web Technologies

## Technical Skills

---

**Programming Languages:** Java, JavaScript, C, SQL, NoSQL

**Web Development:** React, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, Firebase, HTML, CSS

**Design & Tools:** UI/UX Design, Figma, Product Design, Git, GitHub, Adobe XD, Adobe Photoshop, Docker, n8n, Google Cloud Platform

**Core Competencies:** Full-Stack Development, Workflow Automation, Cloud Deployment, Web/Product Design, Problem Solving in Java

## Experience

---

**Associate Software Engineer**, Stejassys – Chennai, Tamil Nadu Present

- Develop full-stack applications and automate workflows using n8n, modern JavaScript frameworks, and backend technologies.
- Containerize and deploy applications using Docker on Google Cloud Platform for scalable and reliable environments.

**Product Design Intern**, Zoho Corporation – Tirunelveli, Tamil Nadu May 2025 – Aug 2025

- Designed wireframes, interactive prototypes and responsive layouts using Figma and Adobe XD.
- Improved usability and collaborated with teams to ensure alignment between design decisions and functional requirements.

**Full-Stack Web Development Intern**, AK Infopark – Nagercoil, Tamil Nadu Mar 2024 – Apr 2024

- Built full-stack applications using the MERN stack and Next.js, integrating PostgreSQL and Firebase.
- Optimized backend APIs and collaborated in an agile environment using Git and GitHub.

## Projects

---

**Your Hundred Makes Wonder – Donation Platform** view website

- Developed a full-featured donation platform with secure payment processing using Razorpay and a scalable backend architecture.
- Implemented user authentication, data management and workflow logic using MongoDB and Firebase to ensure smooth and reliable user interactions.

**Portfolio Website** view portfolio

- Designed and developed a responsive portfolio website to showcase technical skills and projects with a modern and intuitive interface.
