ANTO JEBIKSHAN

Software Engineer | Full Stack Developer | LLM Applications

Tirunelveli, India | +91 81483 64524 | dantojebi@gmail.com | linkedin.com/in/antojebi | github.com/AntoJebi7 | antojebikshan.com

SUMMARY

Full stack software engineer building production web applications and LLM-powered products with TypeScript, NestJS, Next.js, Java and Spring Boot. Hands-on across backend APIs, admin dashboards, RAG pipelines with LangChain and LangGraph, n8n workflow automation and Docker deployments on Google Cloud. Seeking Associate Software Engineer and Software Engineer roles in full stack development.

TECHNICAL SKILLS

Languages: Java, TypeScript, JavaScript, C, Python, SQL

Backend: NestJS, Spring Boot, Node.js, REST APIs, OpenAPI/Swagger, PostgreSQL, Prisma, MongoDB, Background Jobs

Frontend: Next.js, React, Tailwind CSS, Typed API Clients, Admin Dashboards

AI and LLM: LangChain, LangGraph, RAG (Vector Search, Hybrid Retrieval, Reranking), Prompt Engineering, LLM Evaluation

Automation and Integrations: n8n, WhatsApp Business API, Telegram API, Razorpay, React Email, SMTP

DevOps and Observability: Docker, Docker Compose, Nginx, Google Cloud Platform (GCP), CI/CD, Git, Langfuse, Sentry

Security: Better Auth, Role-Based Access Control, Multi-Tenant Architecture, Audit Logging, DPDP Compliance

EXPERIENCE

Associate Software Engineer | StejasSYS, Chennai (Remote) **Jun 2026 - Present**

- Build backend services for multi-tenant SaaS products with NestJS, TypeScript, PostgreSQL and Prisma, including schema migrations, background jobs and scheduled workers.
- Design REST APIs documented with OpenAPI/Swagger and generate typed API clients for Next.js and React admin dashboards.
- Develop LLM applications with LangChain and LangGraph, including RAG with vector search, hybrid retrieval and reranking, structured output and multi-provider failover.
- Run automated LLM evaluation and regression suites and trace production behaviour with Langfuse and Sentry.
- Integrate WhatsApp Business, Telegram, third-party booking APIs, Razorpay subscription billing and transactional email.
- Implement Better Auth authentication, role-based access control, audit logging, data masking and DPDP compliance.
- Deploy on GCP virtual machines with Docker, Docker Compose and Nginx through CI/CD with staged sandbox to production releases; own usage metering, quota management and incident root-cause analysis.

Associate Software Engineer Intern | StejasSYS **Sep 2025 - May 2026**

- Designed and built n8n workflow automations that streamlined business processes and connected third-party APIs and services.
- Developed full stack web applications with Next.js, React, JavaScript and TypeScript.
- Built REST APIs in Node.js and Spring Boot with validation and error handling; prototyped LangChain RAG features.

Product Design Intern | Zoho, Tirunelveli **May 2025 - Aug 2025**

- Designed wireframes and responsive prototypes in Figma and Adobe XD, iterating with engineering teams to align designs with functional requirements.

Full Stack Developer Intern | AK Infopark **Mar 2024**

- Built MERN and Next.js web applications with PostgreSQL and Firebase; optimized REST APIs in an Agile team.

PROJECTS

Biology Tamil NEET Preparation Platform | Next.js, React, Capacitor, Android **Apr 2026 - May 2026**

- Built and launched a NEET Biology learning platform for Tamil-speaking students as a Next.js web app and an Android app published on Google Play.

YHMW Charitable Trust Website | Next.js, JavaScript **Sep 2025**

- Built a secure website for a Tirunelveli charitable trust with online donations and content management.

EDUCATION

B.E. Computer Science and Engineering | SCAD College of Engineering and Technology **Nov 2022 - May 2026**

CGPA: 7.8 | First Class
